

GAVROCHE®

EVERYTHING IS IN YOUR HANDS

KATALOG 2026

Türgriffe der Marke Gavroche® sind Produkte aus der hochwertigen Zinklegierung ZAMAK 3. Die Herstellung erfolgt als Druckguss. So erhält jedes Modell seine individuelle Form dem jeweiligen Design entsprechend mit geraden Linien und ohne störende Grate. Die hervorragende Ausgewogenheit von physikalischen und mechanischen Eigenschaften dieser Legierung ermöglichen das Aufbringen einer Beschichtung, die im Vergleich zur Veredelung von Türgriffen aus Aluminiumlegierungen durch die Qualität und Güte der Beschichtung eine lange Lebensdauer garantiert.

Unsere Modellpalette deckt durch seine Vielschichtigkeit der Designs weitgehend alle Bereiche der heutigen Innenarchitektur ab und wird ständig erweitert. Durch Türgriffe der Marke Gavroche® werden Ihre Türen zu einem echten Hingucker welcher den guten Geschmack seines Besitzers unterstreicht. Wir haben es uns zur Aufgabe gemacht Türgriffe zu designen und herzustellen, die bei hoher und wertiger Funktionalität ein echtes dekoratives Element Ihres Lebensraumes werden.

## Innovativer Verriegelungsmechanismus mit komfortablem Notfallzugang

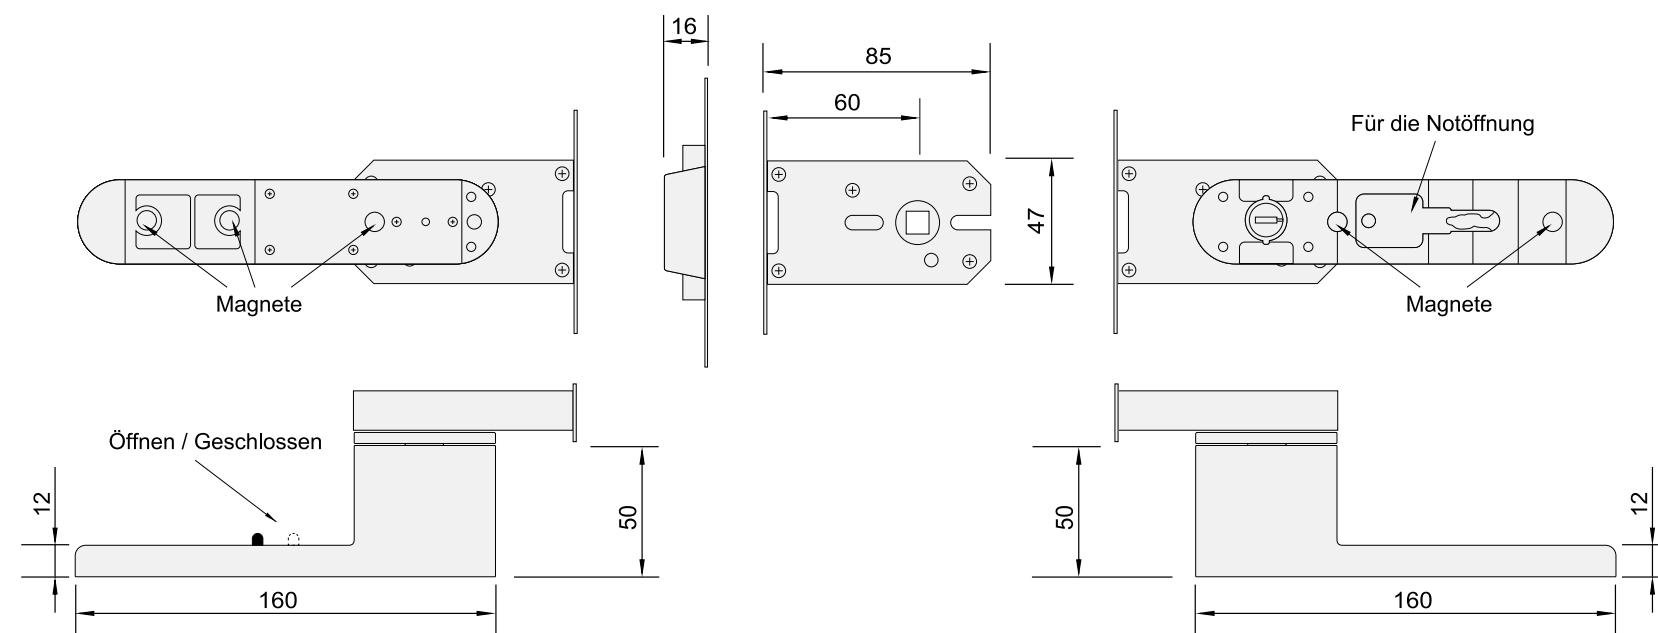

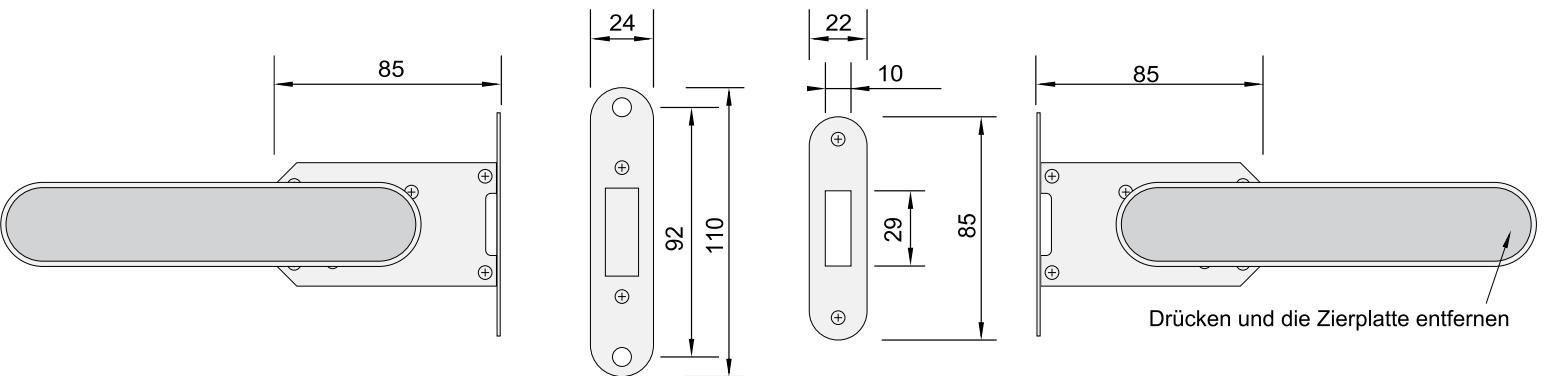

Diese Türgriff-Garnitur verfügt über einen integrierten Schalter auf der Innenseite des Hebels. Durch Aktivieren dieses Schalters wird der Griff blockiert und die Tür bleibt ohne zusätzliches Schloss verschlossen.

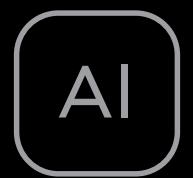

Für den Notfall bietet die Außenseite eine versteckte Entriegelungsmöglichkeit. Unter der dekorativen Abdeckung befindet sich ein Schlüsselsystem. Um darauf zuzugreifen, genügt ein leichter Fingerdruck auf die magnetisch befestigte Abdeckung. Nach dem Entfernen wird der Schlüssel sichtbar, mit dem sich die Tür schnell und sicher entriegeln lässt.

Diese Lösung ist ideal für Badezimmer, Büros und andere Räume, in denen eine einfache Verriegelung mit einer praktischen Notöffnung erforderlich ist

Die Türklinke kann sowohl mit dem Schloss verwendet werden, das im Lieferumfang enthalten ist, als auch mit einem Schloss, das bereits in Ihrer Tür installiert ist.
